5. On 4 February. 5 T-34s practiced firing on the ranges 2 km north of the kasernes. One of the tanks was seen returning to the kaserne.  1. Comment. The data on weapons again confirm the 91st Gds RL Regt of the Third Gds Meoz Army in Stalag I (3521) in Luckenwalde. The units quartered in Stalag II cannot definitely be identified. According to service color and insignia, it is possible that elements of the 91st Gds RL Regt are also stationed there.  2. Comment. From 24 January to 2 February 1955, artillery units of the 12th Gds Tank Div (Second Gds Meoz Army) conducted fixing practices at Jueterbog.  artillery units, possibly of the 14th Regt also practiced fixing during the reported period.  3. Comment. No changes.  4. Comment. No considerable changes have taken place in the Wittenberg post. The truck replacement program appears to have been completed there.  5. Comment. These (, amphibious cars cannot yet be identified. It is possible that the vehicles are part of a supply bound for the 36th Pon Bridge Regt of the GSFG since amphibious cars with cupclas have reportedly been seen in the quarters of this regiment in Magdeburg.  6. Comment. In mid-October 1955, the artillery park stationed in the former factory area (3181) in Jessen was transferred to Jueterbog. The installation has been vacant since any pecember 1954 when there were vague indications that the installation was recocupied by an unidentified unit of the 6th Gds Tank Div. These assumptions were confirmed twice. The fact that troops reconditioned a training area and the kind of training observed lead to the cosclusion that the soldiers concerned are a combat unit and not a workshop or supply unit.
